- Expo
- Expo Router
- Reanimated
- Gesture Handler
- NativeWind
- Expo API/Components
- EAS

Giorgi Jobava

Frontend & Mobile Developer

React · Next.js · React Native · Expo · TypeScript

Frontend and Mobile Developer with 3+ years of experience building responsive web and cross-platform mobile applications using **React, Next.js, React Native, Expo**, and **TypeScript**. Currently developing digital products for the vehicle transportation industry, including a driver application with load management, camera-based vehicle inspections, document workflows, and API-driven authentication. Experienced in creating polished, native-feeling interfaces, integrating **REST APIs**, optimizing performance, and delivering features through modern **CI/CD** workflows.

Work Experience

Front-end & Mobile Developer | Avorix

Tbilisi, Georgia / Hybrid

Mar 2026 - Present

- Develop web and cross-platform mobile products using React, Next.js, React Native, Expo, and TypeScript.
- Build driver-facing load, inspection, camera, document, and profile workflows for a vehicle transportation platform.
- Integrate REST APIs, authentication, Google Maps services, and environment-specific configuration.
- Create responsive and accessible interfaces using Material UI, Tailwind CSS, NativeWind, Radix UI, and animation libraries.
- Owned end-to-end feature delivery in AWS environment.
- Support releases across development, UAT, and production through Azure DevOps, Vercel, EAS, and Git-based workflows.

Front-end Developer | Tridan AI (Remote)

Jan 2025 - May 2025

- Developed and maintained React and TypeScript features within a microservice-based product environment.
- Integrated REST APIs and contributed to secure authentication and OAuth-based workflows.
- Improved frontend maintainability through modular architecture, reusable components, and automated testing.
- Wrote unit and end-to-end tests using Jest and Cypress.
- Owned end-to-end feature delivery in AWS environment.
- Collaborated with clients and cross-functional team members to deliver features, UI improvements, and production fixes.

State & Data:

- TanStack Query
- Zustand
- Redux Toolkit
- Axios
- React Hook Form
- Zod

Backend & APIs:

- Node.js
- Express.js
- NestJS
- REST APIs
- OpenAPI
- Oauth
- MySQL

Testing:

- Jest
- React Testing Library
- Cypress
- Unit Testing

Tools & Platforms:

- Git
- Docker
- Azure DevOps
- GitHub Actions
- Vercel
- AWS
- Firebase
- Supabase
- Figma

Languages

English (Advanced C1)

Georgian (Native)

Russian (Fluent C2)

German (Beginner A1)

Front-end Developer | Freelancer on Upwork (Remote)

Feb 2023 - Mar 2026

- Delivered 10+ applications with 100% client satisfaction using React and TypeScript.
- Improved performance and maintainability via reusable component systems.
- Strengthened data consistency using MySQL and structured APIs.
- Accelerated deployments by 40% using CI/CD and Docker.
- Supported product and marketing teams by implementing frontend updates for digital campaigns and promotional landing pages..

Projects

What'sOn Tbilisi | *November 2025 - Present*

A modern event discovery and social platform for Tbilisi, Georgia. Discover, create, and participate in local activities and events.
